

## II L-aspartic acid industry nowadays in China

### II-1 Current production situation

#### II-1.1 Summary of manufacturers

Currently there are 18 active producers of L-aspartic acid in China with the total capacity of [REDACTED] kts/a in 2007.

#### IV-1 Analysis of applications

About ██████ tonnes of L-aspartic acid is consumed in China in 2006. The consumption volume of L-aspartic acid in ██████ accounts for ██████% of the total amount. The second largest L-aspartic acid consumption field is ██████, which accounts for ██████% of the total.
