Executive summary	1
Methodology	2
1 New registrations of pesticide technical in China in 2017	3
1.1 Number of registrations of pesticide technical in China in 2017	3
1.2 Number of full registrations and temporary registrations in new registrations of pesticide technical in China in 2017	3
1.3 Number of registrations of TC and TK in new registrations of pesticide technical in China in 2017	3
1.4 Number of new registrations of pesticide technical in China by application in 2017 ...	4
1.5 Number of new registrations of pesticide technical in China by category in 2017	4
1.6 Number of new registrations of pesticide technical in China by toxic level in 2017	4
1.7 Number of active ingredients in new registrations of pesticide technical in China in 2017	5
1.8 Top ten active ingredients of pesticide technical by number of new registrations in China in 2017	6
1.9 Top ten regions by number of registrants in new registrations of pesticide technical in China in 2017	6
1.10 Top ten regions by number of registrations in new registrations of pesticide technical in China in 2017	7
1.11 Top ten registrants of pesticide technical by number of new registrations in China in 2017	7
1.12 New registrations of pesticide technical held by listed pesticide enterprises in China in 2017	10
1.13 New registrations of pesticide technical held by foreign enterprises in China in 2017	10
2 New registrations of herbicide technical in China in 2017	13
2.1 Number of new registrations, registrants and active ingredients of herbicide technical in China in 2017	13
2.2 Top eight herbicide technical by number of new registrations in China in 2017	13
2.3 Top eight registrants of herbicide technical by number of new registrations in China in 2017	18
3 New registrations of insecticide technical in China in 2017	19
3.1 Number of new registrations, registrants and active ingredients of insecticide technical in China in 2017	19
3.2 Top eight insecticide technical by number of new registrations in China in 2017	19

3.3 Top five registrants of insecticide technical by number of new registrations in China in 2017	22
4 New registrations of fungicide technical in China in 2017.....	23
4.1 Number of new registrations, registrants and active ingredients of fungicide technical in China in 2017.....	23
4.2 Top seven fungicide technical by number of new registrations in China in 2017.....	23
4.3 Top nine registrants of fungicide technical by number of new registrations in China in 2017.....	错误!未定义书签。

1. Introduction

This report provides an overview of the new registrations of pesticide technical in China in 2017, and introduces the new registrations of herbicide technical, insecticide technical and fungicide technical in detail.

Scope of the report

Region scope: China

Time scope: 2017

On the basis of category: herbicide technical, insecticide technical, fungicide technical

2. Approach for this report

The report is drafted by diverse methods as follows:

- Desk research

The sources of desk research are various, including published magazines, journals, government websites and statistics, industrial statistics, association seminars as well as information from the Internet. A lot of work has gone into the compilation and analysis of the obtained information.

- Internet

CCM visited government websites and contacted with players in the domestic agrochemical industry through B2B websites and software.

- Data processing and presentation

The data collected and compiled are sourced from:

- CCM's database
- Published articles in periodicals, magazines, journals and third-party databases
- Statistics from governments and international institutes
- Telephone interviews with domestic producers, joint ventures, service suppliers and governments
- Third-party data providers
- Comments from industrial experts
- Professional databases from other sources
- Information from the internet

The data from various sources have been combined and cross-checked to make this report as precise and scientific as possible. Throughout the process, a series of internal discussions were held in order to analyse the data and draw the conclusions.

3. Executive summary

In 2017, there had been xxx new registrations and xxx renewed registrations of pesticide technical in China, accounting for xxx % and xxx % of the total xxx registrations, respectively.

Implemented on 1 June, 2017 and 1 Aug., 2017 respectively, the *New Regulations on Pesticide Administration* and the amended *Measures on Administration of Pesticide Registration* would certainly influence the registration of pesticide technical in China in 2017.

In the past, the new registrations of pesticide technical had four major characteristics. Firstly, the number of full registrations was way beyond that of temporary registrations. Secondly, the number of new registrations of TC was much larger than that of TK. Thirdly, the new registrations of pesticide technical for agricultural use far outnumbered that for sanitary use. Fourthly, the number of new registrations of herbicide technical ranked first among all the categories of registered pesticide technical. Did these situations continued in 2017?

This report not only shows an overview of the new registrations of pesticide technical in China in 2017, but also introduces the new registrations of herbicide technical, insecticide technical and fungicide technical in detail.

Note: Unless otherwise mentioned, pesticide technical in this report refers to technical material (TC) and technical concentrate (TK).

4. What's in this report?

Note: Key data/information in this sample page is hidden, while in the report it is not.
