Executive summary	1
Methodology	2
1 New registrations of pesticide formulations in China in 2017	3
1.1 Number of registrations of pesticide formulations in China in 2017	3
1.2 Number of new registrations of pesticide formulations in China by category in 2017 .	3
1.3 Number of new registrations of pesticide formulations in China by formulation type in 2017	3
1.4 Number of new registrations of pesticide formulations in China by toxic level in 2017	5
1.5 Number of active ingredients in new registrations of pesticide formulations in China in 2017	5
1.6 Top ten active ingredients of pesticide formulations by number of new registrations in China in 2017	6
1.7 Top ten active ingredients of single pesticide formulations by number of new registrations in China in 2017	6
1.8 Top ten active ingredients of mixed pesticide formulations by number of new registrations in China in 2017	7
1.9 Top ten registrants of pesticide formulations by number of new registrations in China in 2017	8
2 New registrations of herbicide formulations in China in 2017	9
2.1 Number of new registrations of herbicide formulations in China by formulation type in 2017	9
2.2 Number of new registrations of herbicide formulations in China by toxic level in 2017	10
2.3 Top ten active ingredients of herbicide formulations by number of new registrations in China in 2017	10
2.4 Top ten active ingredients of single herbicide formulations by number of new registrations in China in 2017	11
2.5 Top ten active ingredients of mixed herbicide formulations by number of new registrations in China in 2017	11
2.6 Top ten registrants of herbicide formulations by number of new registrations in China in 2017	12
3 New registrations of fungicide formulations in China in 2017	13
3.1 Number of new registrations of fungicide formulations in China by formulation type in 2017	13

3.2 Number of new registrations of fungicide formulations in China by toxic level in 2017	14
3.3 Top ten active ingredients of fungicide formulations by number of new registrations in China in 2017	14
3.4 Top ten active ingredients of single fungicide formulations by number of new registrations in China in 2017.....	15
3.5 Top ten active ingredients of mixed fungicide formulations by number of new registrations in China in 2017.....	15
3.6 Top ten registrants of fungicide formulations by number of new registrations in China in 2017	16
4 New registrations of insecticide formulations in China in 2017	17
4.1 Number of new registrations of insecticide formulations in China by formulation type in 2017.....	17
4.2 Number of new registrations of insecticide formulations in China by toxic level in 2017	18
4.3 Top ten active ingredients of insecticide formulations by number of new registrations in China in 2017.....	18
4.4 Top ten active ingredients of single insecticide formulations by number of new registrations in China in 2017.....	19
4.5 Top ten active ingredients of mixed insecticide formulations by number of new registrations in China in 2017.....	19
4.6 Top ten registrants of insecticide formulations by number of new registrations in China in 2017	20

1. Introduction

This report not only shows an overview of the new registrations of pesticide formulations in China in 2017, but also introduces the new registrations of herbicide formulations, insecticide formulations and fungicide formulations in detail.

Scope of the report

Region scope: China

Time scope: 2017

On the basis of category: herbicide formulations, insecticide formulations, fungicide formulations

2. Approach for this report

The report is drafted by diverse methods as follows:

- Desk research

The sources of desk research are various, including published magazines, journals, government statistics, industrial statistics, association seminars as well as information from the Internet. A lot of work has gone into the compilation and analysis of the obtained information.

- Internet

CCM contacted with players in the domestic agrochemical industry through B2B websites and software as well as obtained registration information on the internet.

- Data processing and presentation

The data collected and compiled are sourced from:

- CCM's database
- Published articles in periodicals, magazines, journals and third-party databases
- Statistics from governments and international institutes
- Telephone interviews with domestic producers, joint ventures, service suppliers and governments
- Third-party data providers
- Comments from industrial experts
- Professional databases from other sources
- Information from the internet

The data from various sources have been combined and cross-checked to make this report as precise and scientific as possible. Throughout the process, a series of internal discussions were held in order to analyse the data and draw the conclusions.

3. Executive summary

In 2017, there had been XXX new registrations and XXX renewed registrations of pesticide formulations in China, accounting for XXX and XXX of the total XXX registrations.

There had been four kinds of newly registered pesticide formulations, namely herbicide formulations, fungicide formulations, insecticide formulations and others. The number of herbicide formulations registered in China reached XXX, accounting for XXX of the total, followed by fungicide formulations and insecticide formulations. In 2017, there had been XXX new registrations of herbicide formulations, fungicide formulations and insecticide formulations, accounting for XXX of the total in China. Generally, aqueous solution is the frequently registered pesticide formulation type by the number of registrations.

And in 2017, there had been XXX kinds of active ingredients in the new registrations of herbicide formulations, fungicide formulations and insecticide formulations. Holding XXX registrations of pesticide formulations, XXX ranked first on the list of the top ten registrants of pesticide formulations by number of new registrations in China.

4. What's in this report?

Note: Key data/information in this sample page is hidden, while in the report it is not.
