## 6 Demand and Growth of M-Cresol in China Especially the Vitamin E and Agrochemical Sectors

The annual consumption of Meta Cresol in China is around 9,000 MT. Depending on the prosperity in the market of pesticides and synthesized Vitamin E. The market of Meta cresol will keep expanding. The demand for Meta cresol increases annually by 11-13% and is predicted to reach about 11, 000MT in year 2005 and 22,000MTs in year 2010. Apparently producers in China haven't the ability to supply that much. Imported material is still needed in the next years.

Table I-6-1 Consumption & demand of meta cresol in 2003 and in the future (on base of 99.5% material), Unit: MTs
