

III-3-5 Polyethyleneimine

As one of high polymers, polyethyleneimine products with different molecular weights or concentrations generally have different applications, which have resulted in different product specifications and market prices.

In 2009, the import volume and total value of polyethyleneimine have reached [REDACTED] tonnes and USD [REDACTED] respectively in China. From Jan. to Oct. in 2010, the total import volume and value of polyethyleneimine have reached [REDACTED] tonnes and USD [REDACTED] respectively.

The total import volume of the top [REDACTED] importers has accounted for [REDACTED] and [REDACTED] of the total imported polyethyleneimine in China in 2009 and Jan.-Oct. 2010 respectively. Besides, most of polyethyleneimine importers in China were end users and their import volume has accounted for [REDACTED] and [REDACTED] of the total imported polyethyleneimine in 2009 and Jan.-Oct. 2010 respectively.
